All projects requesting renewal must demonstrate they have met minimum project eligibility, capacity, timeliness, and performance standards to be considered for funding.

GENERAL PROJECT INFORMATION

1a. Provide a narrative describing how the project's performance met the plans and goals established in the current project's application, the project's performance in assisting program participants to achieve and maintain independent living, and record of success. (Include target populations and preferences as specified and/or allowed by the Notice of Funding Availability (NOFA) under which the project was initially funded.) If the renewing project has not yet started, provide a narrative of anticipated performance in these same areas based on experience with other related projects. (1000 word limit)

This project is an example of the feedback of consumers being implemented to expand and improve on an already successful project. In 2017 this new project was pursued to take advantage of HUD'S opportunity to improve services to youth experiencing homelessness through the joint Transitional Housing, Permanent Housing-Rapid Rehousing component type. This project application is for the second-year renewal of the First Step project that will begin in December of 2018. This project recognizes that not all young people experiencing homelessness have the same needs; some youth may require both TH and RRH in order to resolve their housing crisis and solve their immediate need for a safe place to stay. Both components will be made available to all program participants but a participant may choose to receive only the TH component or only the PH-RRH component or both. Youth that we have had contact with in the current year's program, the Youth Collaborative project, frequently identified that they would be better able to engage in their housing search for permanent housing if they had a safe and stable place to stay while they were doing so. The TH component of this project will provide safe units at the ready for youth ages 18-24 to immediately access, when the participant identifies that is a need. All of the participants will then be able to either Transition in Place, where that transitional unit becomes their permanent housing, or move into another permanent housing destination of their choosing. This project allows for short or medium term financial assistance and developmentally appropriate individualized case management services that meet the needs of 18-24-year-old households with and without children. Consistent with Housing First philosophy, this project will have a low barrier intake process and accept youth with a variety of backgrounds and barriers to housing stability including substance abuse and criminal histories and zero income. Screening and assessment for entry into this project will be conducted by our community's coordinated entry The Salvation Army. Resources will be targeted and prioritized based upon community priorities and in alignment with the community's CoC plan to end homelessness. Youth ages 18-24 who are living on the streets or in shelters and lack the financial resources and support networks to obtain housing on their own shall be prioritized for this project. All participating households will be assisted to obtain housing in the private rental market and be assisted to secure a lease in the neighborhood of their choice. All units will meet HUD Housing Quality Standards and rent

reasonableness will be the applicable rent standard. All will receive services from a trained Housing Resource Specialist (HRS) and linkage to specialized youth services as needed, including but not limited to connection to mainstream benefits, mental health services, employment, income and educational assistance. Services are voluntary but a minimum requirement of monthly contact to ensure specific steps to achieve goals are outlined and strengths and resources are identified and rallied to address any barriers that might interfere with hosing stability. Services are provided throughout program participation and for 6 months post exit from rental assistance. Services are designed to enhance participant's housing stability and selfsufficiency. Arbor Circle and The Salvation Army are sub-recipients and partners in this project as they were partners in the reallocated Youth Collaborative project. Together in the RRH Collaborative 2016-2017 year we have successfully housed 98 youth households. We also consistently reviewed data to improve the projects and services for youth. We learned that 42% of the youth served had experienced domestic or sexual violence prior to their entry into housing and 78% were staying in places unfit for human habitation when they came to us for help securing housing. We also learned a lot of antidotal information from youth about how they were or more accurately were not meeting their needs for healthy food. We also learned that prior to being housed 70% of the youth served had zero income. We listened to feedback every step of the way from the youth we served. This new project is developed based on the voice of youth and their desire to have a safe place to stay when seeking more permanent housing. Our TH opportunity will afford them immediate access to accommodations that meet their needs for safety and nutrition. Our partnership with Arbor Circle will support the counseling needs and address the trauma experienced by youth served. We also learned that we are succeeding in helping youth to increase their income. 64% of youth served increased their income. \$1,179.00 was the average income increase for those who completed the project. In another similar Rapid Rehousing project, SSVF, 68% of households were housed within 30 days of project entry and 94% exited to permanent housing destinations. With this new model, we believe, it will shorten the length of time homeless for youth households, as well as provide a safe and secure place for youth to stay while they work with their Housing Resource Specialist to obtain permanent housing. Community Rebuilders has been consulted by The National Alliance to End Homelessness as an expert on Rapid Rehousing. For our youth Rapid Rehousing we have expanded our partnerships, extended our service offerings to respond to the needs of youth who may be tenants for the very first time and intensified our supportive services and financial assistance. This combined with our expertise in housing first, connecting consumers to mainstream resources, landlord relations, and voluntary consumer driven services makes for a highly successful combination. We expect outcomes for First Steps to be similar to our other highly successful rapid rehousing and transition in place projects.

1b. Use the last completed grant year APR for this and all other data/outcome measure questions. If the renewing project has not yet started, indicate the planned number of units per county.*

4. Low Barrier

To earn points as Low Barrier, the project must answer affirmatively to all the following questions.

Does the project ensure that participants are NOT screened out (or denied project entry) due to the following:	7.0
Having too little or not enough income	Yes
Active substance use or history of substance abuse	Yes
Having a criminal record (other than for state-mandated restrictions)	Yes
Domestic violence (requiring survivor to take specific actions or demonstrate distance from assailant)	Yes

5. Housing First

In addition to the answers above, a project must also answer affirmatively to the following questions to qualify as Housing First.

Does the project work to ensure that participants are NOT terminated from the program due to the following: (Table Continues on Following Page)	
Failure to participate in supportive services	Yes
Failure to make progress on a service plan	Yes
Loss of income or failure to improve income	Yes
Being a victim of domestic violence	Yes
Any other activity not typically covered in a lease agreement but found in the project's geographic area.	Yes
Does the project quickly move participants into permanent housing?	Yes

- 6. All recipients of HUD CoC Program funding are required to participate in Coordinated Entry. Did the project take 100% of all referrals from Coordinated Entry (or community process if Category 4 homeless) in the past grant year or will it once the grant year begins? (Verified by HMIS reports) Yes
- 7. What is the prioritization process for households referred to this project? How is it determined who is most vulnerable and the best fit for any referrals to this project? Provide detail from policy established by the Local Planning Body. (500 word limit)

We use coordinated entry which is, The Salvation Army Housing Assessment Program. Coordinated entry uses a VI-SPDAT prioritization tool to ensure that those most vulnerable are served first. We inform coordinated entry of our program openings and eligibility criteria. Coordinated entry makes referrals based on those in need and length of time homeless. With this joint TH/RRH vulernable individuals will have access to immediate emergency housing as well as a permanent housing resource.

Efficient Use of Funding (If the renewing project has not completed a full year, share information from the last completed year of another HUD funded project or similarly designed project through this agency)

- 8. What was the project's utilization rate? (Average of Quarterly Point- in-Time Counts in APR 9 divided by total contracted units.) 100%
- 9. Expenditure of Funds: Use last completed HUD FY year.

a. Total amount authorized within eLOCCS	\$782,976
b. Remaining balance in eLOCCS	\$0
c. Percentage recaptured	0%
Divide answer b. by answer a. and multiply by 100	

10. Were drawdowns made to eLOCCS at least quarterly? (Demonstrated in eLOCCS attachment)

Yes

HMIS Participation (If the renewing project has not completed a full year, share information from the last completed year of another HUD funded project or similarly designed project through this agency)

11. Indicate how many APR Data Quality Elements (DQE) have 5% or less null or missing values (APR Q06; use data from alternative system if DV program):

Estati	Data Quality	Element APR 6a6d.	
	Number of elements with	5% or less null or missing	g values
DQE 6a.	DQE 6b.	DQE 6c.	DQE 6d.

Total the numbers al	bove, divide by 16, multip	ly by 100 for a percent: 10	00%

HUD Monitoring

12. a. Does the recipient have any HUD monitoring findings in any of the agency's projects? No

If yes, explain below findings in detail for the Funding Review Panel. Include details on the nature of the finding, resolution and corrective actions taken, if any.

Click here to enter text.

- b. Has your organization been monitored by HUD in the past three (3) years? No
- If yes, include as attachments: Monitoring report from HUD, your organization's response to any findings, documentation from HUD that finding or concern has been satisfied, and any other relevant documentation.
- If no, provide most recent monitoring by an entity other than HUD for federal or state funding (ESG, CDBG, etc) and include as attachments: Monitoring report, your organization's response to any

findings, documentation from entity that finding or concern has been satisfied, and any other relevant documentation.

	Impact	on I	Home	lessness
--	---------------	------	------	----------

13. Please evaluate how the project would impact homelessness in the CoC if it were not awarded funding through this competition.

The project would close and _88 individuals would immediately become homeless if it
were to not be funded.
Loss of funding would result in loss of housing options and could mean eventual
displacement or increase in homelessness.
Loss of funding would negatively impact services and resources but not a clear loss of
housing options.
Loss of funding would minimally impact the number of housing options or resources
available.

- 14. Is this project the only CoC funded project with dedicated beds to a particular target population? Answered by Funding Review Committee based on all applications submitted for this NOFA.
- 15. Funds that are reallocated may be added to renewal projects to increase the number of households served. If funding is available:

Would this project accept additional funds?

✓ Yes

✓ No

How would additional households be served with these funds?

It would allow us to serve more households. Additional households on the prioritization list would receive assistance and have access to permenant housing.

Serving High Need Populations (If the renewing project has not completed a full year, share information from the last completed year of another HUD funded project or similarly designed project through this agency)

16. What percentage of the households served met "hard to serve" criteria defined as having zero income at start/entry? (APR 18. Add values for No Income and divide by Total in last row):

45%

17. What percentage of the households served met "hard to serve" criteria defined as having two (2) or more physical or mental health conditions known at start/entry (APR 13.a.2. add totals for two and three or more conditions, then divide by total):

63%

18. What percentage of the households served were chronically homeless? (APR Q26a. divide total chronically homeless by total households):

Section II. Project Performance

Performance Data (If the renewing project has not completed a full year, share information from the last completed year of another HUD funded project or similarly designed project through this agency)
