GENERAL PROJECT INFORMATION

1a. Provide a narrative describing how the project's performance met the plans and goals established in the current project's application, the project's performance in assisting program participants to achieve and maintain independent living, and record of success. (Include target populations and preferences as specified and/or allowed by the Notice of Funding Availability (NOFA) under which the project was initially funded.) If the renewing project has not yet started, provide a narrative of anticipated performance in these same areas based on experience with other related projects. (1000 word limit)

The Heroes project is a scattered site permanent housing program that moves homeless, disabled veterans into permanent housing of their choosing. This project was awarded as a HUD Samaritan Bonus Project to support our community's effort to end Veteran Homelessness. Leasing assistance and voluntary supportive services are provided to help participants establish residential stability, increase their income/benefits and self-determination. Housing Resource Specialists provide support services that are trauma informed and incorporate key strategies from solution focused and motivational interviewing. Through use of the strengths-based housing- first HRS model this project ensures that homeless Veterans with a disability receive the most cost-effective intervention by immediately linking the participant to stable housing of their choice within the private rental market. HRS work with each participant to identify rental housing of their liking. Participants benefit from the opportunity to engage in pre-tenancy planning to select housing in the areas that are most convenient for them and near areas they frequent. The foundation of the strengths-based approach and the role of the HRS is a strong, trusting and respectful relationship with participants. This approach promotes service engagement and results in participants having greater ability to adhere to lease requirements and accomplish their goals for improved self-sufficiency. Community Rebuilders has long-standing relationships with private landlords in the local area that make it possible for participants to have choices in the private rental market. Housing resource specialist assist households by completing an assessment to identify housing history, past strengths and barriers to housing. The assessment includes information such as patterns and risk, what worked well in previous housing situations and what hindered their ability to maintain housing. HUD required Housing Quality Inspections are completed by the HRS and serve as a great learning opportunity for participants to learn the legal obligations of their landlord and understand their right to have safe and decent housing. On-going supportive services are provided as needed and a housing goal and action plan is reviewed regularly to promote long-term housing sustainability. The philosophy of this project relies on the belief that people experiencing homelessness have the right to self-determination and should be treated with dignity and respect and as such the housing and services provided depend on the needs and preferences of each household served. The success of this program is evidenced by the housing

stability obtained by program participants and its ability to prevent returns to homelessness by its participants. Services focus on stabilization in the neighborhood and community, linkage to service needs, and assistance with accessing benefits. Veterans are assisted, as appropriate, for their health condition to increase their income and self-sufficiency. Individualized goals and action plans focus on the strengths of the individual and their hopes and dreams for the future. The Heroes project provided housing assistance to 17 persons in 2017. 100% of project participants exited to or remained in permanent housing. 100% report an increase in health and well-being and 76% reported an increase in total income. The HEROES project has been important in our successful initiative to end Veteran homelessness. The 11 PSH beds it provides has helped to house the most vulnerable Veterans in our community. This project also serves as part of the successful example of the benefit to a community and its homeless population when Coordinated Entry and systems work together to prioritize and end homelessness. This project is guided by HUD's strong encouraging of CoC's to work and coordinate with local Veterans Affairs (VA) Medical Centers on the HUD-Veterans Affairs Supportive Housing (HUD-VASH) program, to coordinate efforts related to ending veteran's homelessness. LOFT played an essential role in our local coordinated effort. This project successfully targets homeless veterans and prioritized homeless veterans that are not eligible for VA housing and services. Further, our CoC adopted the orders of priority described in the HUD Prioritization Notice, and HUD encouragement of the CoC's to further prioritize veteran households. Our Community met functional zero this past year in part due to the work in this project. Focus Groups, Anonymous surveys and continual quality improvement efforts are part of each Community Rebuilders project. Additionally, Community Rebuilders is aware of the disparities that can occur among varying racial groups. Therefore, we continually monitor demographics to ensure that all groups are served fairly and equitably. In 2016-17, the following demographics were served in this project: 47% Black or African American, 53% White, 10% Hispanic the feedback we get from surveys routinely indicates that Veterans want us to change nothing about the project but to expand it to be able to help more Veterans. One Veteran reports that being housed and connected to VA benefits saved him from having his leg amputated. He now feels better able to advocate for himself, maintain his housing and has a service dog to assist him. Several Veterans indicate that their ability to maintain stable housing has led them to achieve their own personal goals such as reconnecting with family, purchasing a vehicle, and giving back to the community. Veterans participating in the project have expressed a willingness to share their stories with others in order to motivate and inspire those who are experiencing a housing crisis like they once had. Community Rebuilders has held several groups so that they would have the opportunity to share with other Veterans. These groups resulted in all the Veterans feeling empowered and less isolated. One Veteran even participated in a television news report after our agency won a Connecting with Community Award. He shared how our work to end Veteran homelessness resulted in him being stably housed and improving his health. The project is in high demand in the community and it would be our hope to be able to expand this project to serve many more.

SECTION I: Project Effectiveness

3. Does the project serve priority populations (Veterans, Chronically Homeless, Families, Youth, Domestic Violence Survivors)? Enter the number of units dedicated or prioritized for each population at turnover.

4. Low Barrier

To earn points as Low Barrier, the project must answer affirmatively to all the following questions.

Does the project ensure that participants are NOT screened out (or denied project entry) due to the following:	
Having too little or not enough income	Yes
Active substance use or history of substance abuse	Yes
Having a criminal record (other than for state-mandated restrictions)	Yes
Domestic violence (requiring survivor to take specific actions or demonstrate distance from assailant)	Yes

5. Housing First

In addition to the answers above, a project must also answer affirmatively to the following questions to qualify as Housing First.

Does the project work to ensure that participants are NOT terminated from the program due to the following: (Table Continues on Following Page)	
Failure to participate in supportive services	Yes
Failure to make progress on a service plan	Yes
Loss of income or failure to improve income	Yes
Being a victim of domestic violence	Yes
Any other activity not typically covered in a lease agreement but found in the project's geographic area.	Yes
Does the project quickly move participants into permanent housing?	Yes

6. All recipients of HUD CoC Program funding are required to participate in Coordinated Entry. Did the project take 100% of all referrals from Coordinated Entry (or community process if Category 4 homeless) in the past grant year or will it once the grant year begins? (Verified by HMIS reports) Yes

7. What is the prioritization process for households referred to this project? How is it determined who is most vulnerable and the best fit for any referrals to this project? Provide detail from policy established by the Local Planning Body. (500 word limit)

Herroes Utilizes coordinated entry, TSA HAP to prioritize participants for this project. The HUD PSH prioritization policy adopted by the CoC utilizes a common assessment tool, VI-SPDAT, through the Salvation Army Housing Assessment Program. The Heroes program provides eligibility criteria to HAP

who then uses scoring mechanisms in the assessment tool (VI SPDAT) to determine priority of services for eligible referrals to the Heroes program. This ensures that the most vulnerable and highest in need are prioritized for services.

Efficient Use of Funding *(If the renewing project has not completed a full year, share information from the last completed year of another HUD funded project or similarly designed project through this agency)*

8. What was the project's utilization rate? *(Average of Quarterly Point- in-Time Counts in APR 9 divided by total contracted units.)* 100%

9. Expenditure of Funds: Use last **completed** HUD FY year.

a. Total amount authorized within eLOCCS	130,265
b. Remaining balance in eLOCCS	0
c. Percentage recaptured Divide answer b. by answer a. and multiply by 100	0

10. Were drawdowns made to eLOCCS at least quarterly? *(Demonstrated in eLOCCS attachment)*

Yes

HMIS Participation *(If the renewing project has not completed a full year, share information from the last completed year of another HUD funded project or similarly designed project through this agency)*

11. Indicate how many APR Data Quality Elements (DQE) have 5% or less null or missing values *(APR Q06; use data from alternative system if DV program)*:

Number of elements with 5% or less null or missing values			
DQE 6a.	DQE 6b.	DQE 6c.	DQE 6d.
5	5	4	2
Total the numbers above, divide by 16, multiply by 100 for a percent: 100%			

HUD Monitoring

12. a. Does the recipient have any HUD monitoring findings in any of the agency's projects? **No**

If yes, explain below findings in detail for the Funding Review Panel. Include details on the nature of the finding, resolution and corrective actions taken, if any.

[Click here to enter text.](#)

b. Has your organization been monitored by HUD in the past three (3) years? **No**

If yes, include as attachments: Monitoring report from HUD, your organization's response to any findings, documentation from HUD that finding or concern has been satisfied, and any other relevant documentation.

Impact on Homelessness

13. Please evaluate how the project would impact homelessness in the CoC if it were not awarded funding through this competition.

<input checked="" type="checkbox"/>	The project would close and ___17___ individuals would immediately become homeless if it were to not be funded.
<input type="checkbox"/>	Loss of funding would result in loss of housing options and could mean eventual displacement or increase in homelessness.
<input type="checkbox"/>	Loss of funding would negatively impact services and resources but not a clear loss of housing options.
<input type="checkbox"/>	Loss of funding would minimally impact the number of housing options or resources available.

14. Is this project the only CoC funded project with dedicated beds to a particular target population?
Answered by Funding Review Committee based on all applications submitted for this NOFA.

15. Funds that are reallocated may be added to renewal projects to increase the number of households served. If funding is available:

Would this project accept additional funds? ☒ Yes ☐ No

How would additional households be served with these funds?

Additional funding would allow us to expand our services to include additional referrals that are presenting at the Housing Assessment Program. We are aware that additional veterans have presented with the need for permanent housing support but have not been able to access the Heroes program due to it being at capacity for the majority of the year.

Serving High Need Populations *(If the renewing project has not completed a full year, share information from the last completed year of another HUD funded project or similarly designed project through this agency)*

16. What percentage of the households served met "hard to serve" criteria defined as having zero income at start/entry? (APR 18. Add values for No Income and divide by Total in last row):

29%

17. What percentage of the households served met "hard to serve" criteria defined as having two (2) or more physical or mental health conditions known at start/entry (APR 13.a.2. add totals for two and three or more conditions, then divide by total):

47%

18. What percentage of the households served were chronically homeless? (APR Q26a. divide total chronically homeless by total households):

36%
