SECTION I: Project Effectiveness

Efficient Use of Funding *All data should be taken from the project’s most recent completed contracted fiscal year. (If the renewing project has not yet completed a full year, list n/a for each of the metrics)*

3. Expenditure of Funds: Use **last completed project FY in eLOCCS**.

a. Total amount authorized within eLOCCS	
b. Remaining balance in eLOCCS	
c. Percentage recaptured <i>Divide answer b. by answer a. and multiply by 100</i>	

4. What was the project’s utilization rate in the **last completed project FY**? (*Quarterly Point- in-Time Counts in APR 8b divided by total contracted units. RRH projects use actual number of households served divided by contracted number of households served*) _____
 a. If agencies do not believe they will receive full points, they may submit comment for Funding Review Committee consideration:

5. For the **last completed project FY**, calculate the total project costs divided by the total units or households served: _____

Data Quality

For each data-related question below, domestic violence service providers may use data generated from a comparable database to HMIS.

6. In the **last completed project FY** indicate how many APR Data Quality Elements (DQE) have 5% or less null or missing values (*APR Q06*).

Data Quality Element APR 6a.-6c.		
Number of elements with 5% or less null or missing values		
DQE 6a.	DQE 6b.	DQE 6c.
Add the above boxes, divide by 14, and multiply by 100:		

Section II. Project Performance

Performance Data - *All data should be taken from a calendar year 2023 (1/1/23-12/31/23) Annual Performance Report (APR) unless otherwise specified. (If the renewing project has not yet completed a full year, list n/a for each of the metrics)*

For each data-related question below, domestic violence service providers may use data generated from a comparable database to HMIS.

7. Leavers with Any Cash Income: Calculate the percentage of adult leavers who leave the project with one or more sources of cash income. "Cash income" includes both earned and non-earned income. (CY2023 APR #18 - # of adults at exit with 1 or more sources of income/# of adults at exit).
8. Leavers with Any Non-Cash Benefits: Calculate the percentage of adult leavers who leave the project with one or more sources of non-cash benefits. Non-cash benefits include food stamps and other TANF benefits. (CY2023 APR #20b (# of leavers at exit with 1+ sources of benefits/total number of leavers))
9. Leavers with Earned Income (Employment): Calculate the percentage of adult leavers who leave the project with earned income (i.e.: employment). (CY2023 APR #18 - (# of adults at exit with "only earned income" [row 1] + # of adults at exit with "both earned and other income" [row 3])/# of adults at exit)
10. Increases in Total Cash Income for leavers or stayers: The percentage of persons (leavers or stayers depending on project type) who have an increase in any income (earned or other). Measure will be based on both those who exited the project or those who were still in the project as of 12/31/2023.
 - a. PSH projects: use CY2023 APR #19a1 performance measure for adult stayers with any income who Gained or Increased Income from Start to Annual Assessment [column 8, row 5]
 - b. RRH and TH-RRH projects: use CY2023 APR #19a2 performance measure for adult leavers with any income who Gained or Increased Income from Start to Exit [column 8, row 5]
 - c. TH projects: choose CY2023 APR 19a1 or 19a2 for adult stayers or adult leavers

Go to Tab B. Filter for current -project. Filter ‘Days to Reappear’ column for less than or equal to 180 days and count total clients with 0-180 days. Divide total clients with 0-180 days by the total clients who exited to a permanent destination [**FY23 project APR 23c**] and report final value as a percent.
